

Kraus Farm Donating Seedlings!

Kraus Farm is partnering with Arlington Friends of Urban Agriculture to ensure ALL members of our community have access to fresh produce. And with the pandemic at our heels, this is more important now than ever! You can purchase plants at a reduced price to donate to FOUA for the Plot Against Hunger program. Kraus Farm will set those plants aside and when it comes planting time, FOUA will pick up what Kraus Farm has grown to donate! The plants you purchase will go directly to those gardens that are growing the produce that is donated to our community.

Combine your love of fresh food with your love of your community by purchasing plants today. It requires NO growing on your part. **LINK https://www.krausfarmva.com/product-page/donate**

Kraus Farm is a micro-nursery growing vegetables and native plants in Nokesville, VA.
