

March Action List:

Garden Tasks:

- Cleanout of beds
- Garden layout
- Pruning fruit trees
- · Soil tests / Build soil
- Infrastructure repair
- · Tools care
- Acquiring and starting seeds

Garden Committee Tasks:

- Form Committee
- School Staff engagement
 PTA presentation for volunteers
- Determine budget
- Setting goals
- Community workdayFundraiser planning

Milestones for the year ahead

Getting Started

- PTA presentation
- Staff engagement
- Team building
- Workdays
- Soil test / Fertility
- Spring Planting
- First Harvest

Building Community

- Regular workdays
- Harvest donations
- Classroom activities
- Garden visits
- Summer planting
- End of school year

Keeping It Going

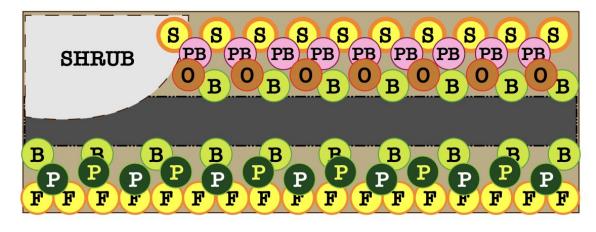

- Summer workdays
- Watering schedule
- Harvest donations
- Community visits
- Summer Camps
- Team planning
- Fall planting

Back to School

- PTA Presentations
- Garden Coordinator
 Recruitment
- School Projects
- Fall Harvest Festival
- Urban Ag Month
- New infrastructure

Garden Preparation

- Wait to clean up until just before planting (protection for crowns and overwintering beneficial insects)
- If new garden plots, start now! Placement? Raised beds? Soil prep?
- Know what you want to plant and acquire seeds/seedlings.
- Look to VA Co-Op Extension, Plot Against Hunger, FOUA, and others for free/low cost seeds

On the Web: http://www.mgnv.org Annual Vegetable Gardening Calendar Arlington County

| Activity Month -> | Jan | Feb | Mar | Apr | May | Jun | Jul | Aug | Sep | Oct | Nov | Dec | |
|---|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|--|
| Order seed catalogues / decide what to grow | | | | | | | | | | | | | |
| Map the garden: crops, companions, succession, rotation | | | | | | | | | | | | | |
| Build a planning calendar (See Reverse) | | | | | | | | | | | | | |
| Check viability and test germination of seeds on hand | | | | | | | | | | | | | |
| Order / buy seeds | | | | | | | | | | | | | |
| Till or pull cover crops 2 weeks before planting next crop | | | | Х | Х | Х | | | | | | | |
| Start hardy vegetables indoors | | | | | | | | | | | | | |
| Transplant into the garden | | | | | | | | | | | | | |
| Start tender summer annuals indoors | | | | | | | | | | | | | |
| Plant (direct sow or transplant) tender summer annuals | | | | | | | | | | | | | |
| Plant summer catch crop (e.g. buckwheat) as needed | | | | | • | | | | - | | | | |
| Plant (direct sow or transplant) fall vegetables | | | | | | | | | | | 1 | | |
| Plant winter cover crops (e.g., rye, wheat, hairy vetch, fava | | | | | | | | | | | | | |
| beans, Austrian winter peas) | | | | | | | | | | | | | |
| Extend seasons: floating row covers, cold frames, cloches | | | | | | | | | | | | | |
| Save seeds from open-pollinated annuals at harvest | | | | | | | | | | | | | |
| Plant garlic for harvest the following June | | | | | | | | | | | | | |
| Harvest all tender annuals before first frost | | | | | | | | | | | | | |
| Compost, incorporate, till or remove residue | | | | | | | | | | | | | |
| Remove and discard any diseased material | | | | | | | | | | | | | |
| Mulch (8") overwintering vegetables (e.g., carrot, parsnip) | | | | | | | | | | | | | |
| All beds should be planted, composted or mulched | | | | | | | | | | | | | |
| Cleanup, maintain and store garden tools and equipment | | | | | | | | | | | | | |
| Rest, write your wish list for garden gifts | | | | | | | | | | | | | |

Notes on starting plants indoors

See individual instructions with seeds

Cabbage, Cauliflower, Brussels Sprouts, Broccoli Start in flats 4 to 6 weeks before planting out

Tomato, Eggplant, Pepper

Start in flats 6 to 8 weeks before planting out and transplant into deeper flats (6 in) or pots midway

Many other plants can be started in flats to save space in the garden, such as corn, wheat, melon, herbs, etc.

Recommended Sustainable Gardening Practices

- Periodically test and amend the soil with minerals, nutrients
- Build & maintain soil organic matter with compost and cover crops. 200 lbs/100sq ft for development -- 50 -100 lbs/sq ft to maintain
- Use French intensive method deeply dig with hand tools (24 in)
- Rotate crops; companion plant; interplant; "right plant, right place"
- Irrigate as needed to maintain moisture
- Keep the garden covered: succession, mulches, cover crops
- Till and aerate properly; use permanent paths; avoid compression

Most Valuable Crop?

Still wondering what to plant?

| | _ |
|---|---|
| In Virginia, the top 15 annueconomic value are: | ual vegetable crops in terms of |
| □Tomatoes | ☐Beans (pole and bush) |
| □Beets | □Broccoli |
| □Carrots | □Chard |
| □ Cucumbers | □ Green onions |
| □Lettuce (head and leaf) | □Onions |
| □Peas (edible pods) | □Peppers |
| □Summer squash | □Turnips |
| 10.170 | 10 m = 1 |

Least value for us? Corn, melons, pumpkins and winter squash Grow vertically on some form of trellis to increase the value per square foot?

Planning: 'Crop' Rotation

Review Planning: Intercropping

Crops Companion Plants

Beans — Cucumbers, cauliflower, cabbage

Egg Plant Beans

Celery Tomato, cauliflower, cabbage

Corn Peas, beans, cucumber, squash

Cucumbers Beans, corn, peas

Cabbage, cauliflower, broccoli Celery, dill, rosemary, beet

Lettuce — Radish, cucumber

Peas Radish, cucumber, corn, beans

Figure 1. A mixed intercropping of peanuts, watermelons, and okra.

Site Selection: Light Low light needs vs High light needs

Tolerates 4-6 hrs

- Spinach
- Kale
- Peas
- Arugula
- Endive
- Radiccio
- Broccoli
- Kohlrabi
- Mustard

Thrives on 6-8 hrs

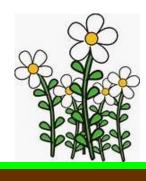

- Potatoes
- Beets
- Carrots
- Turnips
- Lettuce
- Chard
- Collards
- Beans
- Cabbage

Needs 8+ hours

- Tomatoes
- Pepper
- Eggplant
- Squash
- Corn
- Cucumbers
- Melons

Planning: 9 Considerations

- Access to water
- 2. Tall plants (okra, fruit trees, corn) to the north and east unless you want the shade for leafy greens
- 3. Trellis up your vines (cucumbers, melons, beans, squash, malabar spinach,)
- 4. Plant cucumbers and eggplant late
- 5. Inspect and collect squash bug eggs. Daily.
- 6. Provide water for birds. You want them.
- 7. Wide beds and intercropping will reduce weeds and make the most of your space
- 8. Use arborist wood chips for paths with a plan to incorporate them into the soil in future years.
- 9. Plant herbs and flowers to attract beneficial insects both pollinators and predators

Spring Garden Kickoff for those who registered for the original event date! Seeds & seedling giveaways, native plants talk & tour.

Saturday, March 19, 1 pm - 4 pm
Arlington Central Library - 1015 N. Quincy Street

Updated schedule at arlingtonurbanag.org

Presented by:

LOT GAINST JUNGER

& your gardening neighbors

Seedling pickup

If you registered for seedings through PLOT

They will be on the front porch at 1914 N. Upton St in containers, labeled with your name & garden.

They will be available Friday, March 18th 8 am until Sunday, March 27 at 7 pm. (8 am - 7 pm daily ONLY)

Join the Monthly Garden Coordinator Call on April 20 @ 7:30PM TOPIC: Garden Synergies & Best Practices for Pest Control. Also, we'll propose some in-person garden visits for Late April – Early May.

- Earth Day Event: Sunday, April 24, 12-5PM, Lee Heights Shopping Center. In cooperation with the Langston Blvd Alliance.
- April 30th, Wakefield Plant Sale : Go to <u>wakefieldptsa.org/plantsale</u> to order by April 3
- Cover Crops and Their Impact on Soil Health podcast: <u>Episode 243. Cover Crops and Their Impact on Soil Health, Crop Productivity | ATTRA | Sustainable Agriculture Project (ncat.org)</u>
- Spring Celebration and Plant Sale, Glen Carlyn Library, April 23: <u>Spring Celebration and Plant Sale Events Calendar Home (libcal.com)</u>

See you next month! Questions? schoolgardens@arlingtonurbanag.org
